

Daily Scrum

11 May 2024/18:00 / Discord

Attendees

James Stanton, Herry Ye, Jarren Downward, Ruaan Maharaj

Agenda

- **Backlog Refinement follow up**
- **UML Diagrams**

Notes

- James said we need to make sure that all four requirements that he mentioned must be done. This is the Multiplayer aspect, the recording of moves, implementing screen record, updating game logic and Board logic.
- Jarren said that he will look into the multiplayer aspect with the help from Herry.
- Ruaan said he will look into the recording game moves and implementing the screen recording, and he will update the UML diagrams
- James said he will help Ruaan with recording the moves in game, and he will look at the game logic.
- Herry said he will look into the Board logic

Action Items

1. Fetching Json files for moves
2. UML Diagram updates
3. Code link implementation
4. Improving game logic
