

Daily Scrum

14 April 2024/ 14:00 / Zoom

Attendees

James Stanton, Herry Ye, Jarren Downward, Ruaan Maharaj

Agenda

- **Last Meeting Follow-up**
- **Login page and registration page review**

Notes

- The HTML pages were presented to the team as well as the code. James suggested we clean up the code so it uses tags that convey its meaning. He also says some of the CSS code is redundant and not needed.
- Ruaan said he thinks google is the best third party identity provider choice and will begin implementation of it.
- Jarren suggests Azure SQL will be the best database to use with Azure Static Web Pages. He offers to do the schema for the database and create the database.
- James suggested we put the project on Azure to implement continuous integration

Action Items

1. Code polishing - James
2. Third party identity provider implementation - Ruaan
3. Database schema and database creation - Jarren
4. Azure project creation - James
